

Words from the Founder, Dhyan Vimal for the “Walk for Peace” event

The heart of friends to mankind is peace.

Friends to Mankind (F2M) is an avenue for every heart that wants to do something for humanity.

F2M is the platform on which we can safely find ourselves being a friend to each other.

Peace is an agreement to come together in love and the first step to reveal love is to act as a friend to mankind.

Peace is a collective effort and this effort can only happen when we agree that we are friends to mankind.

My responsibility, my action, my duty in the effort for a better world when enough of us are there, then it becomes our effort for a better world. When the community becomes large enough it becomes the heart beat of the world.

It is our privilege that as Malaysians that we are beginning this for the rest of the world.

We as Malaysians are beginning to demonstrate with our multi-racial community, we are acting as friends and we are extending this to mankind.
