

one tribe, one home

friends to mankind

About The Founder

Friends to Mankind is the vision of Dhyan Vimal, a man who has dedicated the last 20 years to his lifework; and sharing what he has come to. He is a renowned international speaker who works with many organisations and individuals on humanitarian and peace projects worldwide.

His vision, his work and the knowledge he shares have been documented in websites, an online library and books which are available internationally. He has also authored many books available at leading bookstores in many countries.

It is an action that translates Dhyan Vimal's vision for a better world. He is the founder/chairman of many corporations ranging from training, healthcare, publishing, design & production, multimedia and bio-diesel. Although a well-established corporate personality, his drive has always been to spend his energy and commitment to serve humanity and peace.

Today, he continues his journey around the world, speaking at international conferences and conventions where he is invited to by individuals, corporations and humanitarian foundations. On his agenda in the coming months is also a speaking session at the United Nations.

A summary of his work can be said to be to awaken the best in everyone. He believes that in rising to one's best, we each are able to serve mankind in a non-violent way. This he calls as 'The Sacred Work'. Many large corporations invite him to share his techniques and methodologies in creating more dynamic and productive personnel.

He realises the subtle fear in everyone in the way the world is leading to. He also realises that there is a pulse and willingness in everyone to come forward and serve peace and humanity. The Sacred Work is designed to dissolve this state of 'helplessness' and 'powerlessness'; and to revive a heartbeat that cares for humanity in everyone.

The Friends to Mankind comes as an answer to this, serving as a common international platform on which people of every community and every country can come together to bring about change and restore peace. Dhyan Vimal is currently travelling to many countries to awaken this new consciousness. He is working together with people from around the world, creating more activities that will send out this pulse.

Although he sees himself as the rest of humanity, Malaysia is his birthplace and holds a special place in his heart. Friends to Mankind was first initiated in Malaysia where he embarked on many activities before he started his travels. He has lined up many activities in Malaysia so we may join hands with the rest of the world in serving peace and humanity.
